Plan Data Summary

		Plan Data			
		Reference Year: 1995	2001	2006	2020
Instructions - Fill in the following section with numbers from Table IV-1 (population), Table IV-6 (waste generation), Table V-4 (industrial waste source reduction and recycling), Table V-3 (residential/commercial source reduction and recycling), Table VII-3 (incineration and ash), and Table VI-5 (landfill disposal). Tons of Waste Reduction (TWR) equals Industrial Source Reduction + Industrial Recycling + Res/Comm Source Reduction + Res/Comm Recycling + MSW Composting + Incineration - (Pre-1985 industrial recycling + Ash Disposed.) The reference year Waste Reduction Rate (WRR) is calculated by dividing the landfill disposal (DL) + TWR into the TWR.
